The Story of *Le Corsaire*

Scene 1 ☞ Conrad's Pirate Ship

A pirate ship, captained by Conrad, sails toward the Persian Empire. A violent storm erupts and Conrad, Birbanto and Ali are saved by princesses from a coastal island. Before the pirates can thank their rescuers, Lankendem, an evil pirate captures the princesses and carries them off. Conrad along with his pirates follow.

Scene 2 ☞ The Bazaar

Conrad and his pirates arrive at a noisy bazaar where Lankendem is showing off the princesses he has captured to the Pasha. The Pasha is not interested in any of them even the lovely Gulnare. Lankendem then presents a young girl, Medora, and everyone is instantly entranced by her beauty, including Conrad. The Pasha chooses Medora as his wife. Conrad decides he must rescue Medora and instructs Ali to save her. Before Medora will leave with Conrad though, she asks him to free all the princesses which he and his pirates gladly do.

Scene 3 ☞ The Pirate Grotto

Conrad completely smitten with Medora brings her and the princesses to his home, the pirate grotto. There he shows off his riches and everyone joins in a huge celebration. Later that night, Lankendem sneaks into the pirate's camp and a fight breaks out. In the confusion, Lankendem steals Medora back and escapes leaving Conrad to once again follow them to try and rescue his love.

Scene 4 ☞ The Bazaar

Back at the Bazaar, Lakendem brings Medora back to the Pasha. Conrad arrives in disguise, but things do not go well for him and it is Medora, along with her friend Gulnare that rescue them all. As they do, the Pasha is knocked unconscious.

Scene 5 ☞ The Pasha's Dream Garden

While lying unconscious, the Pasha dreams of all the princesses. In his dream the princesses turn into a beautiful living garden. The question now is...was this all a dream?
